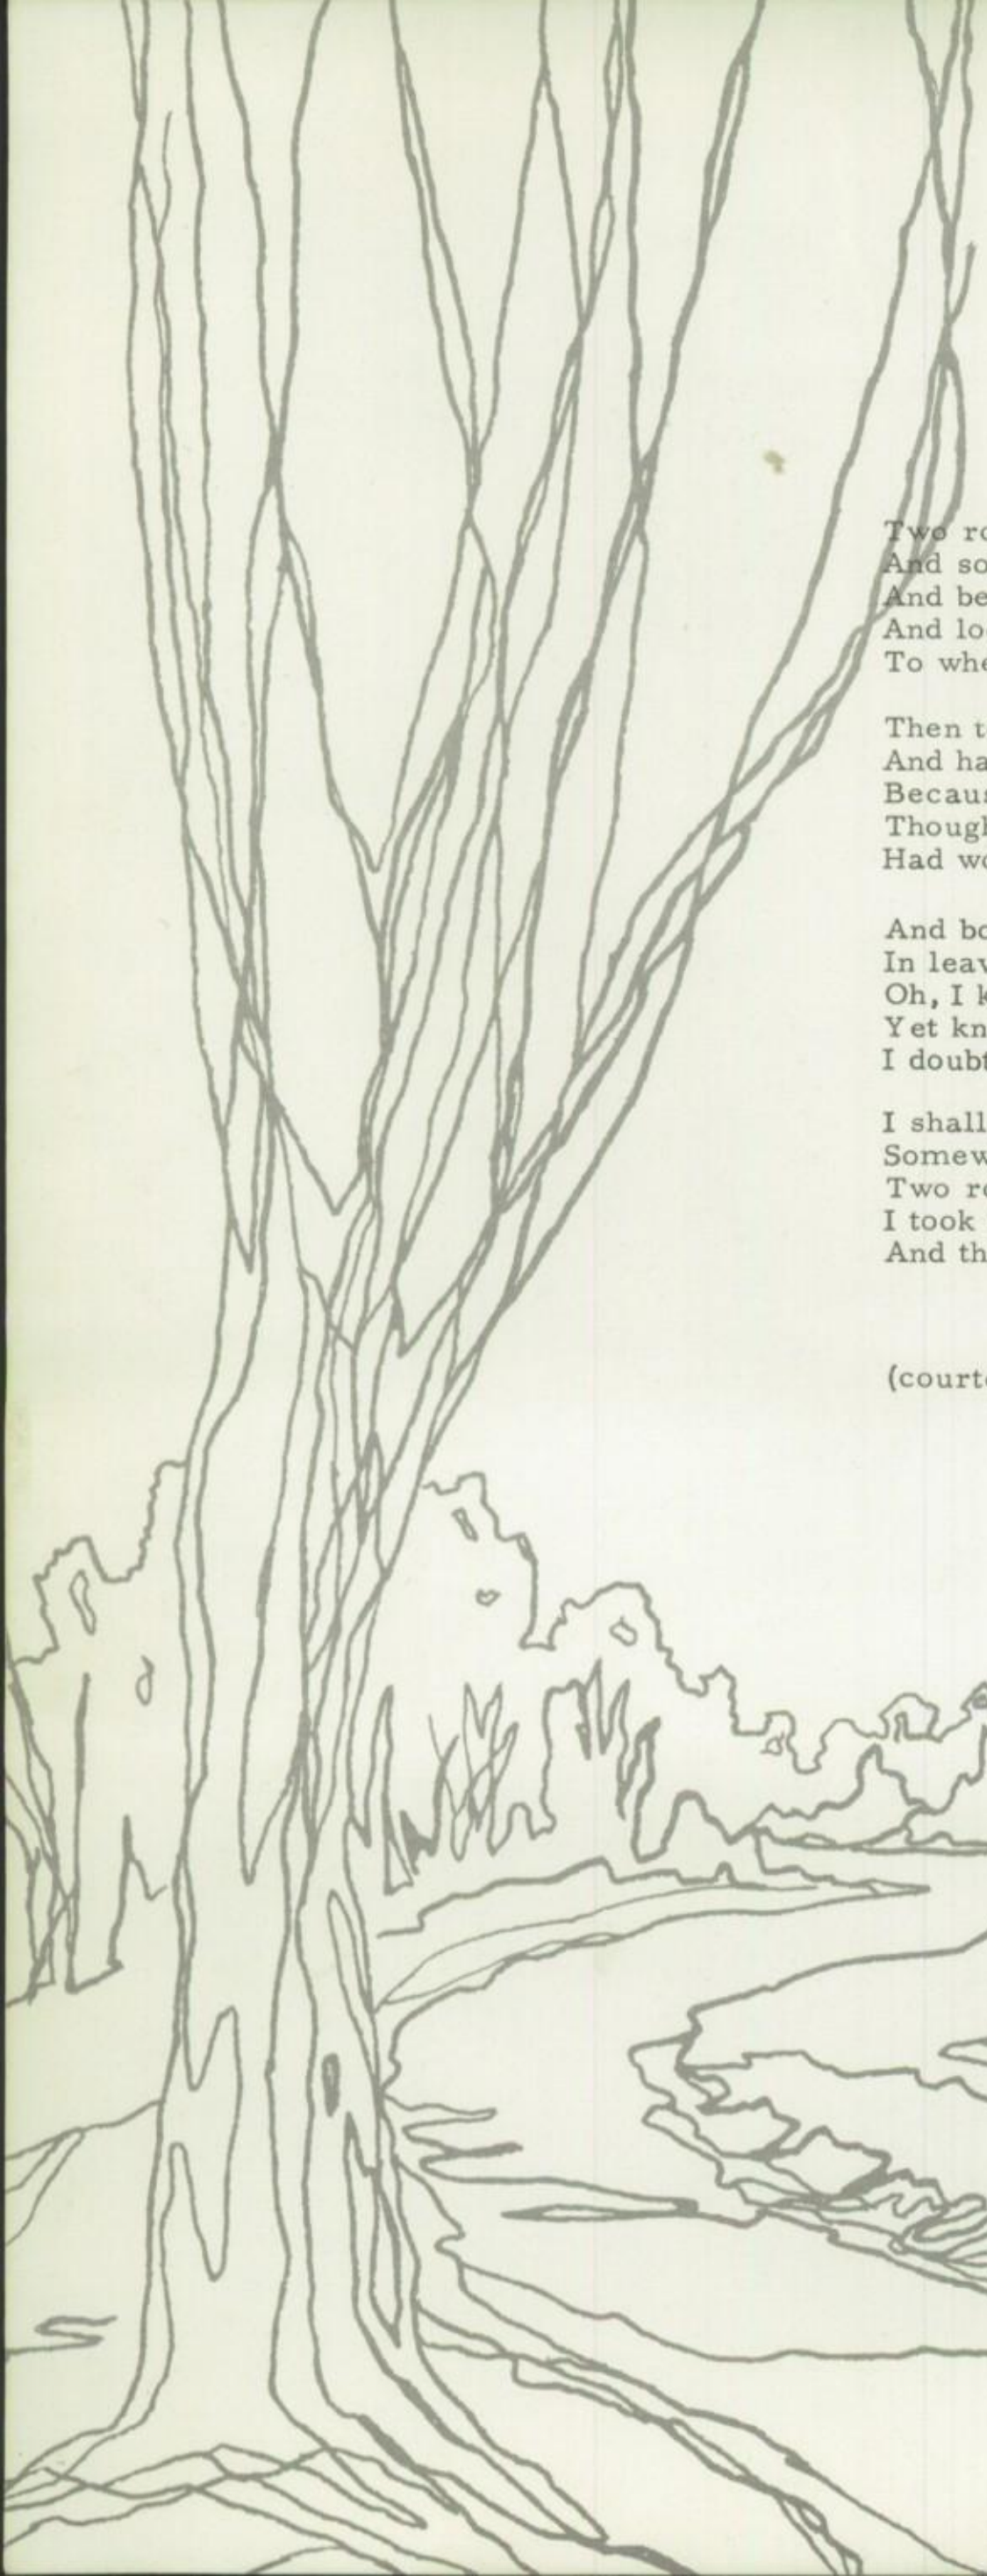
PARTRIDGE

Class of 1958

Duxbury High School

Duxbury, Massachusetts



THE ROAD NOT TAKEN

Two roads diverged in a yellow wood,
And sorry I could not travel both
And be one traveler, long I stood
And looked down one as far as I could
To where it bent in the undergrowth;

Then took the other, as just as fair,
And having perhaps the better claim,
Because it was grassy and wanted wear;
Though as for that the passing there
Had worn them really about the same,

And both that morning equally lay
In leaves no steps had trodden black.
Oh, I kept the first for another day!
Yet knowing how way leads on to way,
I doubted if I should ever come back.

I shall be telling this with a sigh
Somewhere ages and ages hence:
Two roads diverged in a wood, and I-
I took the one less traveled by,
And that has made all the difference.

Lawrence Dunn is progress - the symbol of technological advances - a scientific dreamer.

He has introduced us to the known and has intrigued us with the mysteries of the unknown. But more important, he has challenged us to pursue these mysteries in our separate ways, for the answers can never be found by following one road only. While encouraging the Class of 1958 to grow as individuals, he has also encouraged us to develop a spirit of unity.

In appreciation of his genial and imaginative guidance, we dedicate this yearbook to Mr. Dunn.

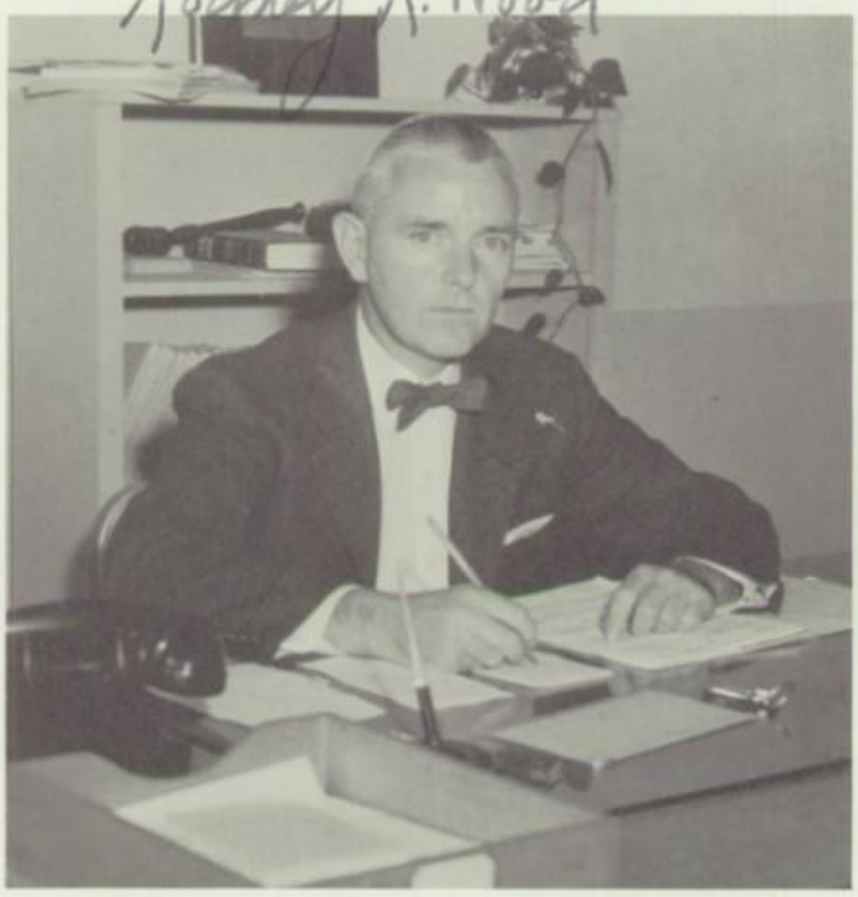
SURVEYORS

One of the wonderful things about life is the constant renewing of opportunity. Although former graduating classes have thought they were entering the golden age of progress, succeeding classes have discovered a new world as challenging as the one which yesterday became commonplace. Your new world is no exception. Its outstanding features are the immediate and close relationships of all people on all parts of the earth, the use and control of outer space, and automation with its attendant problem of increased leisure time. To be graduating now is an exciting experience full of opportunities and adventure.

Times such as these seem to take on special significance as the end of high school education approaches. They re-emphasize the importance of faith, knowledge, courage, good judgment, character, and the ability to understand and get along with others. They stress the need for good leadership. Your class has demonstrated that it has an abundance of these fine qualities.

Congratulations on your success and best wishes for the many happy and eventful years ahead. I shall always have a very special place in my thoughts and memories for the class of 1958.

Everett L. Handy
Superintendent of Schools



PATHFINDER

Mr. Rodney Wood, Principal

Certainly the events of the past seventeen years have emphasized scientific, cultural, and material changes. The members of the class of 1958 have lived in a period unparalleled in the history of the nation. Perhaps a listing of a few recent events and trends will help to document this assertion.

The Atomic Age
The National Prosperity
The Growth of Church Membership
The United Nations
The Decline of the City
The Depletion of Natural Resources
The Era of Space Travel

"Education for a changing World" appears much more important than it did a few years ago. A mind geared to new dimensions, to constant change, is the new power for the individual. Wherever the class of 1958 continues its education, in the university, the business school, or in industry, the faculty of Duxbury High School wish you success and good luck.

CLUB

EXTRA

The editors direct, the presses roll, and the choir emerges singing "Sputniks in the sky, nothing but Sputniks do I see. . ."

From now on clenched palms and crossed fingers are hidden by the seemingly confident stage smiles. After each soloist has successfully struck his or her high note, sighs of relief can be heard from behind the footlights.

As everyone regains his self-reliance, the show culminates in applause. The cast is glad it's over but brimming with ideas for next year's show, when newspaper will give way to "?".

Choir Show Committee

MILESTONES

Remember us as freshmen, and some of our classmates who left?

Good old Mrs. Ferrell - her late slips, the nickels and dimes she lent us, and that one "last phone call."

Frog Pond - need we say anymore?

Remember when Linnea, Susan, and Kenny did a whole one-act play--in French!

Sue-
To a sad
sweet kid.
we've always
had our fights in English
(when you get mad! but
on the whole everything has worked
out for the better. I thought you said
that you were going to loose thirty-five
pounds. What happened? Even enough I won't
be graduating with the class of '55. I hope I'll
~~boing~~ (my grammar) stay friends with you all. We
have a pretty nice bunch of kids in our class, so stay
with Jo and stay friends with them all. Lots of luck in
the future, and of course "Bé Good."

P.S. Have fun with
Mrs. Sherwood next
year.

Sue,
